

MAP OVERVIEW

PEDESTRIANS: PLEASE STAY OFF BIKE TRAILS

CHOOSE YOUR TRAIL

RIDE THE TRAIL THAT MATCHES YOUR ABILITY

MOUNTAIN BIKE LOOP TRAIL

Develop your core fundamentals on this two-way loop. It's designed to introduce riders to balance, cornering, and gear selection through a variety of beginner-friendly trail features.

KIDS PUMP TRACK

Perfect for riders under 8 to build confidence. Use the rollers and banked turns to learn momentum and "pumping" in a fun, low-speed environment.

BEGINNER JUMP AREA

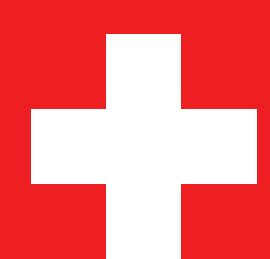

A safe introduction to catching air. These rollable tabletops help you master timing and body positioning before moving on to larger jumps.

PROGRESSIVE & EXPERT JUMPS

Built for rapid progression. The Progressive line transitions from blue tabletops into advanced gaps. The Expert line features steep take-offs and immediate high-stakes tests, including a substantial starting jump and sharkfin.

MULCH JUMP

The ultimate spot for trick progression. Use the steep take-off and soft mulch landing to safely master new maneuvers with reduced risk of impact.

IN CASE OF EMERGENCY CALL 911
REPORT LOCATION AS LAGUNA LAKE BIKE PARK

NON-LIFE-THREATENING ISSUES CALL SLO POLICE
NON-EMERGENCY DISPATCH 805-781-7312

FOR TRAIL & MAINTENANCE RELATED ISSUES
CALL SLO RANGERS 805-781-7302

Please respect
other riders
on the trails.
